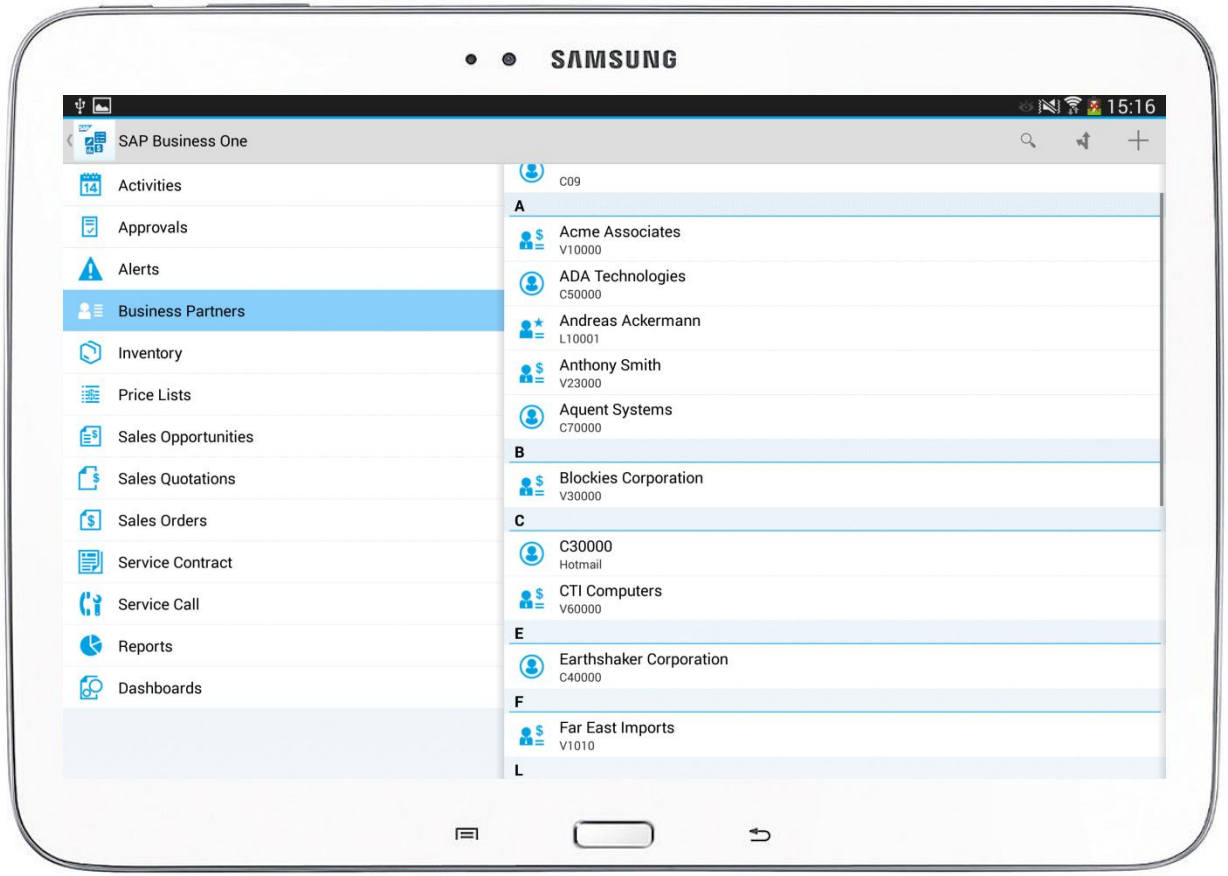
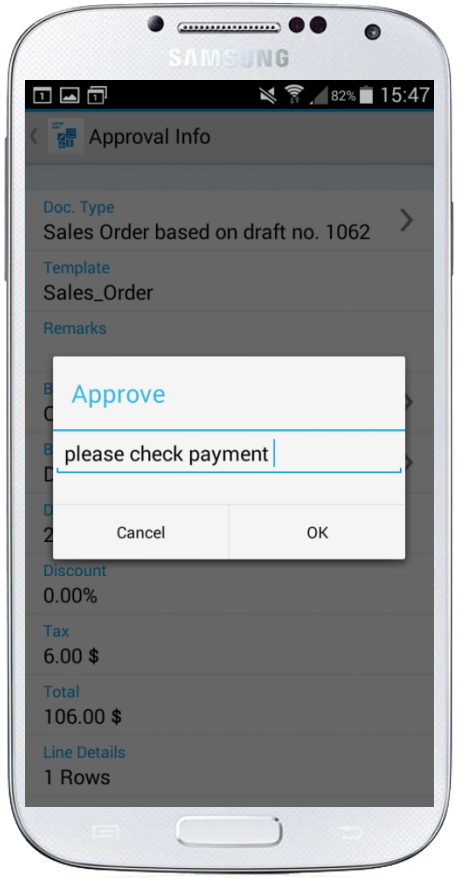
Mobile app for Android

Version 1.2.x, Q2 2016





Introduction

This app allows you to access SAP Business One, SAP's enterprise resource planning application for small businesses, anywhere and anytime.
Managers, executives, sales reps, and service techs stay informed about their business, view reports, manage contacts, and handle sales and service activities.

Complete:

- Access, create, and change all relevant information you need to do your job
- Ensure critical information is always at the fingertips of those who need it most

Intuitive:

- Navigate with ease, see data graphically represented
- Extensive personalization options

Interactive:

- Access data in real time
- Respond directly and trigger processes
- All changes automatically update your SAP Business One backend
